/ WORK EXPERIENCE

>> RESILIENT CODERS
Boston, MA | 2019 to present
- Collaborated with a team of engineers to build modern front-end web applications using HTML5, CSS3 and JavaScript.
- Applied agile methodologies to confront and resolve complex problems and provide tactical solutions.
- Problem solved by debugging code using best practices.
- Maintained a multitude of priorities at once using time management skills to complete projects by established deadlines.

>> SAI CODES FREELANCING
2019 to Present
- Created a client's website to host their professional literary work.
- Built a photography portfolio for a client that highlights their former and current portrait work.

/ ALL ABOUT ME

I am a full-stack software engineer that is passionate about bridging the gaps of disparities within BIPOC and other marginalized communities. Through tech, I want to build innovative applications that provide an optimal user experience -- all while making an impactful difference.
